

ABBEY PARK SCHOOL

Dear Parent/Carer/Guardian

ADDITIONAL GOVERNMENT FUNDING FOR THE SCHOOL

As I am sure you are aware, school funding is challenging and complex with pressures on many levels. One of the ways we can increase funds is to ensure we maximise the grants and funding available to us from both the Government and Local Authority.

In order to maximise the funds available, we have made some changes to how we manage the pupil premium and free school meal processes. Instead of you making an application to the local authority we are asking all parents/carers/guardians to complete the attached form and consent. This will allow us to check eligibility for a range of grants and funds in one go and for us to receive the funding directly.

We realise that the information we are requesting is sensitive. We have chosen to work with an organisation called Simply Education to manage this process. They have the necessary licenses and procedures to access the data required to run the eligibility checks and generate the income directly to the school whilst maintaining the data securely. Please be assured that neither they, or us, will pass this information on to any third parties and will only use it to run regular eligibility checks.

We are grateful for your support and appreciate you completing and returning this form to us at reception.

Yours sincerely

Mr J Young
Operational Principal
